

Research. Data. Insight.

Solit LLC was founded based on decades of experience in clinical research support, data analytics, and project management at the National Institutes of Health.

Teamwork, innovation, and quality are our core values.

Differentiators

- Ten years of clinical research support for 700 protocols across 15 NIH institutes
- Extensive experience managing enterprise-scale health data and bioinformatics
- Standards-based approach to project and information management
- FedRAMP-compliant, cloud-based solutions for ML, AI, and BI

Past Performance

- Henry Jackson Foundation, Center for Neuroscience and Regenerative Medicine
- National Institute of Child Health and Human Development
- National Heart, Lung, and Blood Institute
